

作業 9

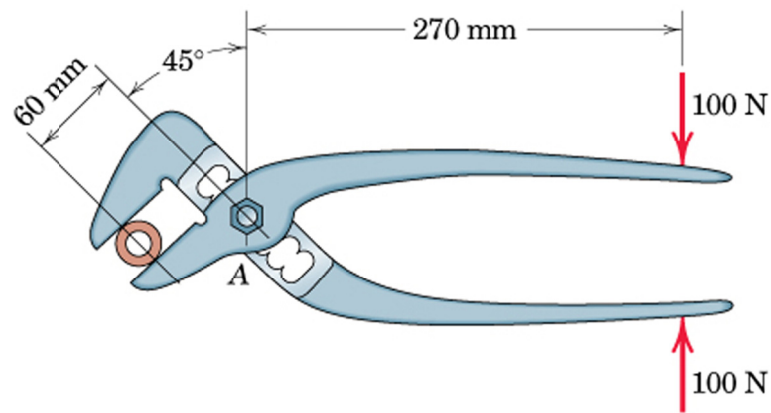

4/67

Determine the force in member BD and the forces supported by all pins in the loaded frame.

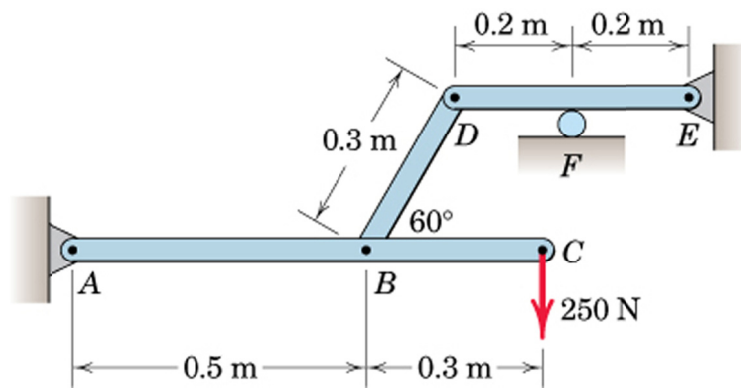

4/70

Compute the force supported by the pin at A for the slip-joint pliers under a grip of 100 N.

4/73

Determine the reaction at the roller F for the frame loaded as shown.

4/83

Determine the magnitude of the pin reaction at A and the magnitude direction of the force reaction at the rollers. The pulleys at C and D are small.
